SAR declaration

The highest SAR value for this mobile phone is < 1.6 W/Kg, in accordance with the requirements of the ICNIRP, which recommended the limit for exposure to radio waves is 1.6 watts/kilogram (W/kg) averaged over 1 gram of tissue. For more information, please visit (www.lavamobiles.com) to query

Safety precautions:

- a. Use a wireless hands-free system (Headphone, headset) with a low power Bluetooth emitter
- b. Make sure the cell phone has a low SAR
- c. Keep your calls short or send a text message (SMS) instead. This advice applies especially to children, adolescents and pregnant women
- d. Use cell phone when the signal quality is good
- e. People having active medical implants should preferably keep the cell phone at least 15cm away from the implant.

All the configurations mentioned in this user manual is only for reference; please refer to the actual phone.

E-waste Disposal Mechanism

'E-waste' means waste electrical and electronic equipment (WEEE). In other words E-waste is a popular, informal name for electronic products nearing the end of their "useful life". For more details about e-waste please refer e-waste rules, 2011 www.moef.nic.in

Do's and Don'ts for disposal e-waste

Do's:

- a. Ensure that an Authorized Person repairs your Lava

products

b. Call Our Local Authorized Collection Centers to Dispose Lava products

c. Always drop your used electronic products, batteries or any accessories thereof after the end of their life at nearest Authorized Collection Point or Collection Center.

d. Separate the packaging material according to responsible waste disposal options and sorting for recycling.

e. Always remove the battery from the product, when you do not intend to use the product anymore it in future.

Don'ts:

a. Do not Dismantle your Lava Product on your own

b. Do not give your e-waste to Kabbadi Wala / Scrap Dealer/ Rag Pickers.

c. Do not dispose-off the e-waste in landfills.

d. Never dump E-waste in garbage bins.

e. Do not dispose of your product at municipal waste bins or rooms. f. Do not throw used batteries into household waste.

g. Consequences of improper handling and disposal of E-Waste

h. Improper disposal of waste prevents natural resources from being re-used.

i. Some waste contains hazardous chemicals and if not disposed of

properly may release toxins into the soil and water, and also releases greenhouse gases into the environment

j. If e-waste is not properly disposed of, it can threat to the health and well-being of humans and animals and it also has adverse effect on the environment.

k. Placing of batteries or devices on or in heating devices, such as microwave, ovens, stoves, or radiators and improper disposal of batteries may lead to explosion.

l. If the battery terminals are in contact with metal objects, it may cause a fire.

m. For more details on how to dispose of your Lava products at the end of life, Please refer the list of our Services Centers on Pan India basis on our website www.lavamobiles.com or please view this link for the details of Service Centers
